Students, Attention! The Brigham Young University at Provo opens Monday, September 10, 1906. Send for catalogue.

Mayor Evers is confined to his residence with la grippe and tonsilitis. Dr. and Mrs. Thayer entertained a

ing in honor of Dr. Barry and bride.

Mr. A. Crawford and family leave Mercur Sept. 5th for Tonopah, Nev., where they intend making their fu-

George H. Dern, general manager of the Con. Mercur, has returned from Ely, Nevada, where he has been on mining business.

Mrs. J. T. Roundy entertained at high five Thursday evening in honor of her sister, Mrs. M. E. Jensen, who is visiting her from Pocatello. following guests were present: Mr. and Mrs. Thomas Reese, Miss Jessie Hall, Jennie Swenson, Frances Peter-son, Celia McMahon, Winnie Mc-Mahon, Mrs. Mary McMahon, Dr. Pape, Mr. McMasters, William Spen-cer, Thomas Osman, James Quirk, C. W. Evers, John Peterson. Miss Jes-sie Hall won the ladies' first prize and Mr. Spencer won the gentlemen's, Miss Peterson and Mr. McMasters each won the consolation prizes.

CON. MERCUR IS SUED.

James Speirs has filed suit in the Third district court against the Con-solidated Mercur Gold Mines company to recover damages amounting to \$10,-

390, under three causes of action.

The plaintiff alleges that he was working for the defendant company June 24, 1966, and that he was ordered to clean out the rollers of one of the mills, and while he was doing this the machinery, which had been stopped for the purpose, was started again He alleges that his left hand was caught in the rollers, mashing four of the fingers, one of which had to be amputated. On this cause of action

the plaintiff asks for \$10,000.

For the second cause he alleges that he lost eighty days' work, for which he asks \$240. For the third cause he alleges that he is entitled to \$150 insurance guaranteed by the company, for which he had been paying a premium of \$1 a month from his

Utah State News

Elder Hyrum L. Baker of Lehi has been released from his missionary la-bors (and is on his way home. He will in San Francisco, September 3. He is bringing home the remains of Elder G. W. Stevans of Ferron, Emery county, Utah, who died while laboring a sa missionary in New Zealand.

Clibert Kelley, an unfortunate young man, 26 years of age, of American Fork, has gone to Minneapolis, Minn. where he will have a pair of artificial legs litted, to enable him to walk for the first time in his life. Although Mr. Kelley has been a cripple since a Mr. Kelley has been a cripple since a dertaking. He is now ploughing his baby, he has acquired a good school education. About six years ago his phide, and while it is a milling ore.

useless legs were amputated wooden ones substituted. The new the belief that with proper equipment legs were a failure and it was only it is to become a big bread winner. with great difficulty he was able with great difficulty he was able to get around. Money necessary for the expense of sending Mr. Kelley east was raised by giving a benefit ball in the Apollo hall Tuesday evening. Mr. Kelley, commonly known as Judge, is a promising law student, having served one term as city justice at this place with great credit. When he returns home three weeks from now he will again take up his law studies at the Brigham Young university.

SUNDRY SOUTHERN UTAH SHORT STOPS

A large amoun, of rain has fallen here recently, with some flood, nothing of a serious character. weather is now pleasant and dry.

Monday, the 27th, two cars of ore from Mercur, two from Alta, four from Stockton, one from Milford, and one from American Fork, were released by the samplers. Tuesday one car of Mercur ore, three from Alta, two from Stockton and one from Milford were released from the samplers. Wednesday two cars of Alta ore were re-leased from the samplers and two cars from Stockton.

Fine assays have been received on some samples of ore from the proper ties of the Utah Mining, Milling and Transportation company of Beaver county. Mr. Birtchart writes to local interests that this ore came from the fourth ore body encountered during the past three or four months' work, and within a very short time he would begin shipping to market ore of simtlar value. The assays show that the ore contains 71.4 ounces silver, 5 per cent lead, 24.4 per cent copper and

ALTA HAPPENINGS.

STOCKTON SUNDRIES.

Manager J. J. Trenam of the New Stockton company spent Saturday at the mine in Stockton.

The Utah of Deep Creek is at the sampler with a big lot of ore, from dated property, and the character of which it promises to derive more than its management, which is getting

The Honerine company received set-tlement for six carloads of concentrates yesterday. The consignment netted the company over \$7,200.

Thursday, 30th, South Columbus changed hands at 64c, 2,000 stores being sold at that figure and 8,200 at 65c. Columbus Con., 300 shares sold at \$7.70 a share; 13 at \$7.60; 1,000 at \$7.65, and 300 at \$7.75.

Friday 1,700 shares of South Co-lumbus sold at 59c a share; 3,600 at 60c; 1,000 at 61c, and 500 at 62c. 100 shares of Columbus Con. at \$7.35; 100 at \$7.40; 300 at \$7.45; 200 at \$7.50;

Saturday, Stockton 2, Alta 3.

The departure of Charles H. Scheu on Saturday evening for the Good ore at depth. The company is now Springs mining district to inspect his shipping two cars per week of oxides numerous interests followed close to the local market and their present numerous interests followed close upon the acquisition by him of the Lavens group of claims, a richly blessed part of that heavily mineralized region, originally located by Harvey Hardy. Mr. Scheu purchased the controlling interest in these properties outright, Mr. Hardy still retaining an interest in the company. Harvey Hardy, Jr., is superintending the vigorous campaign of development work, which now is on in earnest.

the properties of the St. George Mining company. Mr. Levy says that developments have progressed with the most encouraging results, and that he has no doubt of the results of that un-

and it is opening up in a manner to justify

There are few if any in the Good Springs district with such extensive interests as Mr. Schen, his faith in that region being backed by most liberal expenditures of money to ac-quire properties and to develop them when once in his possession. Before when once in his possession. Before his departure Saturday, Mr. Scheu stated that he regarded the Lavena group as one of his banner Good Springs possessions. The properties are located within two miles of the lown of Good Springs and laven town of Good Springs, and a large force of men are at work exploring the mineral resources of the ground.

NEW STOCKTON MINE.

Results Show What Hard Work Can Accomplish in a Mine.

vein would make a mine in itself.

The change from the carbonates to the sulphides in the New Stockton becam to be marked at the 700-foot level. When the vein was reached on the S50-foot level a clean breast of ore from six to eight feet in width was encountered, and an upraise to the 700-foot level exposed the same character of high-grade ore for something more of the extent of this great sulphide deposit, a drift was run along. Lot No. 158 Eighth of January Lot No. 158 Eighth of January more of the extent of this great sulphide deposit, a drift was run along its side for ninety-three feet, exposing for this whole distance about the same character of ore. A winze from the 850-foot level in the sulphides has been started, and a crosscut is being pushed to intersect it on the 1,000-foot level, thus practically blocking out another 150-foot stope of even larger dimensions than the other.

Over to the west of the shaft on the

most entirely to sulphides. The richer part was found to be about four feet in the Mercur Miner, at Mercur, Too-part was found to be about four feet in the Mercur Miner, at Mercur, Too-part was found to be about four feet ele county, Utah, for a period of nine along the strike of the vein. This consecutive weeks means 3,500 tons of ore averaging FRA about \$700 per car net. The most interesting developments, however, are 1.00 shares of Ingot sold at 1 12c; yet to come, the management pushing Tuesday 1.00 shares of Ingot sold at their work in several different directions on the 1.000-foot level to open Columbus at 69c; Wednesday Con. up several shoots of ore. Upon the

ALTA HAPPENINGS.

President Tony Jacobson was in Alta inspecting the Columbus Consolidated Saturday.

Nothing could better illustrate the resources of the Columbus Consoliaround the transportation difficulties successfully, than the report of the shipments and receipts during closed month of August. It is within the present year that the Co-lumbus Consolidated company has een nothing but clear daylight ahead of them, and as bright and favorable as the present is, the future has much more in store for this company.

During August the Columbus Con-solidated sent to the local market a total of 684 tons, dry weight, of con-centrates, which, averaging about \$28.38 per ton, netted the company from the smelters the sum of \$16. 431.87. During the same month a total of 1394 tons, dry weight, of crude ore at \$7.40; 200 at \$7.45; 200 at \$7.50; 100 at \$7.60, and 200 at \$7.65.

Thursday, the 30th, Alta had three cars of ore released by the sampler.
Friday, five cars of ore from Alta. two from Stockton, one from American Fork and one from Big Cotton.

According to present plans a second tunnel is to be started on the City Rocks property to tap the sulphide workings are within 300 feet of the sulphides. Superintendent Edwards lized re- of the property spent Thursday and Harvey Friday in Salt Lake on business connected with the mine, and states that while the matter of the new tunnel has not yet been definitely decided upon, [resent plans are almost certain to go through and the work ordered commenced within a very short time.

NOTICE OF APPLICATION FOR U. S. PATENT.

M. A. No. 4118.

In the United States Land Office at Salt Lake City, Utah, July 23, 1906. Notice is hereby given that the Buckhorn Consolidated Mining and Milling Company, by S. M. Levy, its agent and attorney, whose post office address is Sait Lake City. Utah, claiming 1,500 linear feet of the Bat-de Ax vein, lying, being and situated within the Ophir Mining District, County of Tooele, State of Utah, has made application to the United States for a patent for the said mining claim, being mineral survey No. 4931, which s described as follows, to-wit:

Visitors to the property at Stockton of the New Stockton company—and they are very numerous at this interesting period of the mine's history—are unanimous in their expressions of surprise and satisfaction over the excellent conditions prevailing in this infrequently mentioned property. The Katherine vein, which has provided no small amount of shipping ore from the very surface to the depths where the sulphides have entered, is exhibiting with depth proportions that lead the visitor to the realization that this vein would make a mine in itself.
